SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

4.3M Earthquake, 2 miles South/Southwest of Devore, San Bernardino County

- On Tuesday, 12/29/15 at 1749 hours, a magnitude (M) 4.4 earthquake occurred near Devore, CA, located in San Bernardino County. The earthquake registered at a depth of 4.3 miles, and was reported to be felt across Southern California. The initial earthquake was followed by additional quakes above M 3, including a M 3.8 at 1754 hours and a M 3.2 at 1755 hours, both measuring at a depth of 3.5 miles.
- There are no reports of damage or injuries.
- The Cal OES EQTSU Duty Officer will continue to monitor the situation and provide updates if new information becomes available.
- The California State Warning Center (CSWC) personnel made notifications per SOP.

Gas Outage, Discovery Bay, Contra Costa County

- PG&E experienced a service disruption in the gas facilities that serve customers in Discovery Bay on 12/27/15. In order to make the needed repairs, they temporarily suspended gas service to some customers in this area. Repairs have been made as they continue to restore gas service as safely and quickly as possible.
- PG&E and Contra Costa OES are working with the Red Cross and have set up a warming center for customers at Discovery Bay Community Center - 1601 Discovery Bay Blvd in Discovery Bay, (925) 392-4575.
- PG&E has returned more than 90 percent of customers to service.
- PG&E's gas service representatives began going door to door to conduct pilot relights early Monday morning, and have remained in the area to return all customers to service. They continue to staff gas service representatives locally to support customer requests for pilot relights.
- If customers without gas service would like to schedule a restoration visit, please call 1-800-743-5000.

Proclamations

- A Proclamation Termination has been received from Fresno City, terminating the local emergency for the Summerset Village failed gas line.

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- A dry air mass and light winds will allow overnight temperatures to drop to very low values across most coast and valley locations of Southwest California. The Ojai Valley is expected to be the coldest of the valleys, along with the area between Thousand Oaks to Woodland Hills, where lows in the mid-20s are expected. The Central Coast, Santa Barbara South Coast, Ventura Coast, and San Gabriel Valley will see temperatures near to just above freezing.
- Hard Freeze Watches in effect from late tonight through Thursday morning for areas in Ventura County.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Some light precipitation will be possible this morning as a weakening frontal system sinks south. Dry and cold conditions are expected through the rest of the work week.

Medford Weather:

This morning the remnant low level circulation associated with the overnight frontal system remains offshore in the coastal waters. The deeper moisture continues to push southeastward as the mid and upper level cold pool move into the Great Basin. Expect some light showers and flurries to linger this morning on the west side and over portions of the east side into this afternoon before a dry period ensues.

Reno Weather:

A weak system will produce light snow showers this morning with the potential for slick driving conditions during the morning commute. Valley inversions will develop Friday through Sunday. Afternoon temperatures will remain below average, with a reinforcing shot of cold air arriving late week. Systems may begin to undercut the upper ridge by the middle of next week for our next chance at precipitation.

San Francisco Weather:

A weak weather system approaching from the north will result in a slight chance of precipitation over the North Bay through early afternoon. Otherwise, dry weather conditions and seasonably cool temperatures will persist through the remainder of the week and into the start of the upcoming weekend. A shift to a more progressive and wet pattern then appears likely for early next week.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

A weak system will move through Northern California this morning, otherwise mainly dry weather expected through the weekend. A slight chance of light precipitation can be expected next Monday with a stronger system possible mid-week.

Hanford Weather:

High pressure will provide dry conditions the rest of the week and into the weekend. Seasonably cool days and cold nights can be expected through the period with frost and patchy dense fog each night and morning in the San Joaquin Valley.

SOUTHERN CALIFORNIA:

Los Angeles weather:

Fair skies will continue the rest of the week as a high builds in. A cold Santa Ana event is expected New Year's Eve into New Year's Day. Temperatures should warm during the week but will likely remain below normal. Early next week, a storm could move in bringing chances of rain and cooler temperatures.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

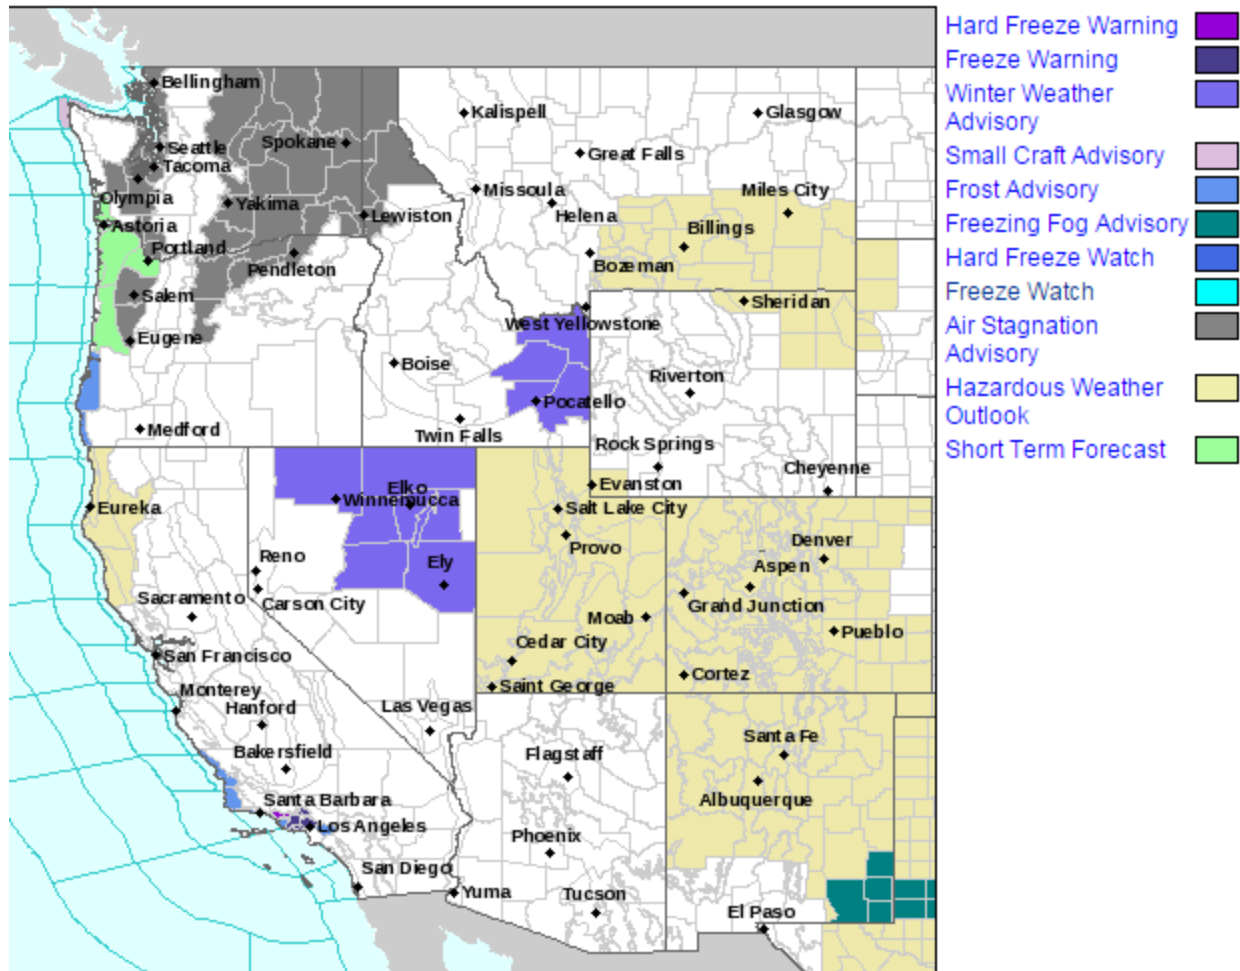

Another chilly night is shaping up across Southern California under clear skies. Areas of frost are likely once again in the inland valleys and lower deserts. High pressure will build into the Great Basin through Saturday, forcing dry, gusty offshore flow through and below the passes and canyons and slightly warmer days west of the mountains. Overall, the weather will be dry and seasonally cool over the holiday weekend.

Southeast California Weather:

Dry and cool conditions are expected across the region through today. Breezy north winds will return by New Year's Eve as a system develops over the Great Basin. A wetter pattern for portions of the desert southwest looks to take shape for the first part of next week.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 63 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 29 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
